

The Roxbury Institute in Beverly Hills Hosts a Star-Studded Grand Opening

Celebrity Plastic Surgeons of Beverly Hills Celebrate an Innovative Luxury Medical Facility *March 17, 2016 13:15 ET* | Source: Dr. David Amron

Los Angeles , March 17, 2016 (GLOBE NEWSWIRE) -- Celebrity liposuction expert and lipedema treatment pioneer Dr. David Amron, along with Drs. Jason Emer and Jennifer Ahdout, is hosting a Grand Opening event for The Roxbury Institute in Beverly Hills, California on March 17 at 7 p.m. The first-of-its-kind medical and research facility specializes in comprehensive patient care for aesthetics, body contouring, and anti-aging medicine.

The Roxbury Institute's Grand Opening will feature a star-studded VIP guest list, as well as an exclusive tour of the luxury facility. After the ribbon cutting ceremony, guests may enjoy hors d'oeuvres and cocktails, while they are provided a first look at the latest products, procedures, and techniques from the medical and beauty industries. Attendees will receive VIP gift bags loaded with luxury items.

"The Roxbury Institute offers patients a truly unique experience, from its non-traditional design to its highly specialized approach to patient care," said Dr. Amron. "We are working with specialists in nearly every major and minor aspect of plastic surgery, aesthetics, and anti-aging medicine to ensure patients receive a completely customized treatment plan that addresses outward appearance with meticulous internal consideration."

In addition to touring the institute's impressive facility, complete with gallery walls, sprawling views of the city, and one of the most advanced anti-aging centers in the country, attendees of the event can also look forward to a private screening of Netflix's "Celebrity Plastic Surgeons of Beverly Hills" with its cast members, which include Dr. Robert Rey, Dr. Jason Diamond, Dr. Kevin Sands, Dr. Craig Ziering and of course, The Roxbury Institute's own Dr. David Amron.

"I founded this institute because I felt there was a real need for comprehensive aesthetic care of this caliber in the area," said Dr. Amron. "It's been a lot of hard work, but I couldn't be more proud of what we have accomplished. I think the attendees of the Grand Opening event will be equally impressed at not only our facility, but also our immense capabilities."
